

“Regeneration Company for Tendring”

The Projects Partnership helped to establish **Tendring Regeneration Ltd**, a Local Authority Not for Profit company for regeneration projects across the Tendring area in Essex.

The Company is controlled by Tendring District Council, and will be the delivery vehicle for a range of economic, social, physical and environmental benefits for the local community under the Council’s *Project Tendring* regeneration initiative.

The Company will have a strong community focus, with the company’s constitution including features specifically aimed at community level participation and accountability. Interests of the localities within the district will be represented through Area Boards. Short term functions can be assigned to task-and-finish groups formed as the need arises, whose membership will respond to local needs.

The Projects Partnership supported a small team of Council officers leading the selection of a suitably flexible and responsive corporate entity, the drafting of the company’s constitution, and the formation and registration of the company. In addition, we provided legal advice on a number of matters key to commencement of the company’s business.

The Projects Partnership Limited
May 2008
